“We’re very pleased with the design of this shed ... **One of the best I’ve seen. I couldn’t wish for anything better.** I like the sturdiness, the actual strength and the way it’s finished off. To me the impressive thing is it’s robust ... It’s a “shed” shed. I think it’s an absolute credit to you.”

John Faint, Saddleworth SA

“We were really pleased with the price, design and construction of the shed. **It looks exceptionally strong and is great from an aesthetic point of view.** Although we had to make changes after we had already ordered the shed, due to outside circumstances, your courtesy and willingness to help us out in a difficult situation were greatly appreciated. We also appreciated the **professional way you conduct business.** When talking to anyone who needs a shed we use our experience as an example and recommend them to contact Grants.”

Bob and Chris Holloway, Mintaro SA

“We promise you that we will do all we can to assist you to build a strong, sturdy shed. Built by experienced, professional shed builders without headaches or hassles.”

Across Sets A and B, if you answered “No” to more than a total of 5 questions, then respectfully, please do not read any further. This quiz is written to eliminate you.

Grant Sheds does not want, nor do we have time, for people who only want the cheapest shed possible. They become the complainers when the shed they get is flimsy, hard to build and has parts missing. We like people who make sound and wise decisions when buying their shed. When we have discerning buyers who appreciate what we do, it gives us more time for them, because we are not wasting time on whingers and complainers.

On the back of that we promise you that we will do all we can to assist you to build a strong, sturdy shed. Built by experienced, professional shed builders without headaches or hassles.

Do you want a stress-free shed building experience so you can save your own valuable time and avoid headaches?

If this is you, if you are serious about choosing a farm shed that'll do the job properly... one you can rely on to do everything you need.
