"Aussie-Tough Farm Sheds ... Delivered On Time & Backed By Our Incredible 50 Year Rock-Solid Guarantee!"

GRANT
SHEDS™

SO WHAT'S AHEAD & AM I READY TO TAKE THE FIRST STEP TO GET GRANT SHEDS WORKING FOR ME?

Right from the start let me be up-front by warning you that real dangers exist when it comes to buying a shed if you don't choose carefully... you really could end up with a "lemon" because there are some sheds on the market that really don't stand up to the job.

Your farm shed really is a hard-working asset for your business – so it affects your family and your livelihood. It's just as important as your machinery and your crops (and sometimes even more). The right farm shed can protect your machinery, improving the life of rubber and plastic fittings, tyres and upholstery. This reduces repair bills, increases the longevity of your farm equipment and improves its resale value.

Or, when storing your hay or grain crops, it keeps it in better condition until you can get a better price than what might be on offer during harvest time.

So What's Next?

We'd really love to build your next farm shed, and we know our super strong 'Aussie Tough' sheds are ready to go to work for you. But before you even decide to do that, we know it's best that we talk (kinda like dating before marriage ... we get to know you, and what you really want, before we give you our proposal that we know you'll fall in love with. But it's probably even better than marriage, because our shed comes with a guarantee!)

It's not every day you come across a company like ours. Our aim is to show you just how passionate we are about making you happy and giving you exceptional service, from even before we meet you!

All you need to do is contact us to talk with you about your farm shed needs. There'll be no obligation to go ahead and we won't be applying any hard edge sales pressure, not at all. We simply want you to say "Hey, I've got nothing to lose, in fact I might just find a genuinely helpful company who can give me an exceptional business experience."

That way, even if your plans for a new farm shed are a bit longer term, then at the very least we can show you what's possible for your farm shed, and show you how a super strong 'Aussie Tough' farm shed from us really is your best choice.

And look: just in case you have any concerns about purchasing a GRANT SHED let us assure you, you are covered in 8 powerful ways ...

You're fully covered by our "Grant Sheds"
Iron-Clad, **Unique 8-Point Guarantee**
INCLUDING our **ROCK- SOLID 50 YEAR**
STRUCTURAL GUARANTEE *AND* our
\$500 ON TIME delivery promise

1. **WE GUARANTEE** you will be **treated professionally and courteously...** just as we would want a member of our own family to be treated.
2. Our "**\$500 On Time Promise**" means **WE GUARANTEE** your new Grant shed will be **delivered on time**. You will be given a delivery time-line when you order and we will stick with that unless you call us and request a delay. And in the unlikely event we miss our deadline, **WE GUARANTEE to deduct \$500 from the agreed cost** of your shed.
3. **WE GUARANTEE** we will be **on time for all the appointments** we set with you.
4. **WE GUARANTEE** to give you **helpful, accurate and comprehensive advice** to help you decide on the best shed size, layout and cost to suit your needs and your budget. We want you to ask us any question that's on your mind. We will give you honest, straightforward answers.
5. **WE GUARANTEE** to use the **best, most up to date specifications** to ensure your new shed is super strong, Aussie tough, won't blow down and one you are proud to own.
6. **WE GUARANTEE** your **satisfaction with the erection of your new shed**. In the unlikely event you are unsatisfied with any part of your shed, or the workmanship of our builders, just call me personally and I will personally aim to make you 100% satisfied.
7. **WE GUARANTEE** your shed will remain structurally sound for the next 50 years (fully explained in a moment). If you do have any structural failure, **we will honour our 50 Year Guarantee**.
8. **WE GUARANTEE** to **remain in contact with you and to provide you with excellent customer service** once you become a member of the **Grant Sheds family**.

Here's how our 'Rock- Solid' 50 Year Grant Sheds Structural Guarantee' works...

If you follow our advice on the specifications for your new farm shed, and have it erected by Grant Sheds licensed, qualified master shed builders (who'll make sure it's erected correctly), and undertake our simple maintenance program every 2 years (which **you'd want to do anyway** to protect and maintain your investment), then we guarantee you won't have any structural failure with your shed for the next 50 years. **Who else would offer that?!**

In the unlikely event that something needs to be fixed with your shed, we promise under our Guarantee:

**We'll work for FREE to fix the problem,
or we'll replace your shed FREE.**

Now while we're talking about our **Rock Solid 50 Year Structural Guarantee**, there are a couple of points to keep in mind. First of all, some events aren't covered. For example, if you drive your tractor or header into the side of the shed and damage it, that might damage the structure and naturally is not guaranteed. Or Acts Of God, like if a bushfire or extreme hurricane destroys your shed, or if a plane lands on it. ... well you see out point. That wouldn't be covered either.

Over time, Colorbond colours fade in the weather (it's natural for this to occur, so you should expect some colour fading) – that's not covered either. If you use the roof beams for makeshift storage or to lift an engine block out of a vehicle that could place dangerous loads on the structure.

Unless you have indicated your intention to use the shed in such a way before we build it (so we can design the specifications accordingly), the Guarantee will not cover such improper use. And the Guarantee doesn't cover any damage to property in or around the shed or any personal injury.

**But if you use your shed according to its specifications... you
will enjoy the comfort of our 50 Year Structural Guarantee.**

So that means things like if your shed were to blow down in strong winds that are within the 100 year wind rating design limits, or if the doors give you trouble, or if there is structural damage caused by the wind or because our builders made an error...

... then we'll either FIX IT for FREE or REPLACE IT for FREE if it can't be fixed.

Of course, we still advise you to insure your shed and contents, and to have your liability insurance up to date (as we're talking about the shed structure here, and not the cost of the contents or damage that may happen to third parties). Anyway, like I mentioned, **in using your shed as you should... you'd be fully protected for the next 50 years.**

Our friendly, helpful sales team members will explain this for you in detail before you agree to anything, so you can rest assured you'll be fully informed.

We've yet to find any other supplier who will come within decades of our Guarantee Period. Most are lucky just to offer you the standard material manufacturer's warranty, if any, and that's it (some imported material won't even offer that). Mostly it's buried in the fine print. Some non-shed companies say they'll give a "lifetime warranty" on their products, but what's that? The life of what? When the thing breaks it's at the end of its life, so it's no longer covered? That's why we prefer a specific time period, so you know exactly what you're getting.

You might wonder how we can make such a bold, outrageous promise that no one else dares to match. Here's why we can...

From our 58 Years in this business, we know that our sheds are built to stand the test of time. That's why we're so confident we can include this outrageous 50-Year Guarantee when you choose a super strong 'Aussie Tough' shed from Grant Sheds.

"Good quality shed... Very good customer service and **a pleasure to do business with**. Builder is a true asset to GRANT SHEDS - efficient, tidy job and friendly also. Thank you GRANT SHEDS for a job well done."

Damien Goodhand, Loxton SA

"**Great service and communication** from Grant Sheds staff and the contractors. Can't wait for the floor to go in. **A stress free experience**. Thankyou"

Dennis Robinson, Renmark SA

"**Very happy with all aspects from start to finish**. Being 270kms away (Jamestown) trying to make things happen was **made so much easier by Grants - shed is great**, no mess left by builders, and when floor goes in, will finish off nicely. Have no hesitation in dealing with Grants in the future."

Ian and Lyn Murdoch, Loxton SA

"We would like to thank GRANT SHEDS for their professional service:- from ordering the shed to the actual construction of the shed. The building contractors were excellent and great to deal with. Thank you again, the shed is fantastic and looks great."

Phil and Sue Lloyd, Lyrup, SA
