## WHAT MAKES SHEDS BUILT BY “GRANT SHEDS” SO GOOD?

HOW TO HAVE PEACE OF MIND KNOWING YOUR FARM SHED IS IN PERFECT ORDER.

“Aussie-Tough Farm Sheds ... Delivered On Time & Backed By Our Incredible 50 Year Rock-Solid Guarantee!”

**GRANT**  
SHEDS™

## WHAT'S SO GREAT ABOUT "GRANT SHEDS" AND WHY SHOULD YOU LISTEN?

We've been building sheds since 1952. "So what" you might say. The point is, when a business can successfully trade for so many years it is proof they must be doing the right thing by their customers.

**53% of the sheds we sell are orders from existing customers and referrals from happy customers - and it's why we've been told "You're the guys who build the best sheds in Australia!"**

Grant Sheds is all about good strong sheds, great customer assistance and backing up our products and services. Grant Sheds look super strong because they are exceptionally strong and 'Aussie tough'. They're sheds designed to withstand our conditions and come with a guarantee TWICE as long as anyone else!

Our builders have a wealth of experience and have worked with us for a long time. Take Steve for example, he has been building Grant sheds for 20 years and holds immense pride in the workmanship and ability of himself and his team. He loves building big farm and industrial sheds. He loves the big equipment he uses (big boys toys) and he enjoys travelling throughout the country.

“... 53% of the sheds we sell are orders from existing customers and referrals from happy customers - and it's why we've been told **“You're the guys who build the best sheds in Australia!”**”

Here's what happens when you come to “GRANT SHEDS” and experience our thorough **9-Step highly personalised process...**

- 1. When you contact us** you'll be made to feel welcome by our trained and experienced sales team who are there to help you understand the different options available... and in what circumstances different shed types are best suited to your needs.
- 2. Once you request a building proposal**, in most cases, we'll have the detailed, written proposal(s) plus layout drawings faxed or emailed to you within 24 hours – often much quicker. The layout drawings help you to visualise what is included in your written quote. We'll then follow it up with a copy of the quote in the mail along with brochures and other information that will be useful to you.
- 3. When placing an order** most people give us their verbal order over the phone. That way we can talk about which shed options you have decided to go with. At this point we'll also tell you when delivery can be scheduled for and when the builders can be scheduled to build your shed.
- 4. We then ask you to pay a deposit** (cheque or Internet banking).
- 5. Following this we send you confirmation of your order** detailing everything that we've discussed to be included, and we'll send the information you need (plans, specifications, etc) for Council building approval.

We can help with your council approval so that everything runs as smoothly as possible. We understand the building compliance issues and regulations, licences and other council approval issues, so that you can save time and avoid added costs.

- 6. It's now time to begin the production process for your shed.** We'll phone you from time to time to keep you informed of the progress of your shed and to check that you're still on target for the shed's delivery as well.

7. **Once your shed is ready we'll call to arrange delivery** and to advise you when the builders will start work. The builders will also call you close to the building time to arrange their specific arrival time and to have a chat about the shed site.

Our shed builders are "Master Class" builders. You'll be impressed by their good-natured manner and their top-class building skills. They have the equipment, tools, building knowledge and experience to get your new shed built fast and to a very high level of workmanship.

8. **On completion of your shed**, you'll be given a Building Satisfaction Form to complete. It shows you what to check to make sure you're happy with your shed. Our builders have a wealth of shed building experience and we are confident they will do the same high-quality work for you that they do for all our customers, but we want you to know that you have the opportunity to check the shed over before they leave.

Please if there is anything at all that you are concerned with, tell the builders so they can fix it while still on site. We'll still take responsibility later, but it is so much easier and your satisfaction assured earlier if you tell them on the spot, please don't be shy. They need to know. Our builders don't get paid until you have checked the shed and signed the form to confirm everything is OK.

Given our long standing relationship with the builders, we know anyway that everything will be OK, but we want you to know that YOU will be able to make sure it's all OK too.

We don't just leave it there either.

9. **After that, within a few weeks of completion you'll receive a call from our office** to make sure that you're STILL happy. Just in case there's anything you've discovered after the builders have left. **We are concerned about your complete satisfaction and that the shed that we've built for you is perfect.**

HEAR WHAT OUR RAVING FANS HAVE TO SAY ABOUT GRANT SHEDS

## HEAR WHAT EVERYDAY, HARD-WORKING SOUTH AUSSIE FARMERS SAY ABOUT WORKING WITH GRANT SHEDS TO SUPPLY AND BUILD THEIR “AUSSIE TOUGH” FARM SHEDS.

At Grant Sheds we make sure you are completely satisfied with the quality of the building we supply. Systems are set for all of the planning, production, delivery and processes so that we can deliver your new shed within the time frame we offer when you place your order.

Past clients often return to Grant Sheds for their next building project, or refer others, because they are so pleased with the strength and organizing of their first Grant Shed. Here are some of the comments coming directly from these happy farmers:

“I’ve just purchased my third Grant Shed. I have 2 Hay Sheds and now a Machinery Shed. I’ve gone with Grant’s again because the first 2 were very good. **The Grant Sheds team listen to what I need and do what I’ve asked for.** They also organise the builders and they arrive on time. The builder, Phil, has been great. **He is very quick and has top workmanship.** I know I’ll be as happy with my 3rd Grant Shed as I’ve been with the others.”

*Neil Heinrich, Bordertown, SA*

“The cost of any purchase is always of concern but we certainly didn’t go for the cheapest quote. **The main concern is the quality of the shed and our neighbours recommendations helped sway our decision.**”

*Peter Faint, Saddleworth, SA*

"I am most grateful to you for the **speed, professionalism and cleanliness** of work carried out. Why would I ever contemplate doing things on the cheap? We now look forward to repeat business with you..." *Joe Verco, Quondong Station, via Burra, SA*

*This is Joe's 7.5m x 36m x 3.3m GRANT Shed at Quondong Station.*

"Thank you so much for the **fantastic service** that you gave us when purchasing and erecting our Grant shed. I had prices from a lot of different places.

I was impressed by your swift service and amazed at being given a written quote straight away. The **price was very competitive** if not better than others I had received from other local and Adelaide businesses.

We were **very impressed by your professionalism** from the start through to your courtesy follow up calls to ensure we were happy with everything. Your **builders were polite** and always informed us if they were coming late due to windy weather etc... All the time frames that you gave us were met early and everyone that was associated with your Company were **very good people to deal with**.

After receiving such great service I highly recommend you to everyone. Keep up the great work. As a local **we feel very privileged to have a company that provides such great service in the Riverland.**"

*Greg and Carolyn Neindorf, Cobdogla, SA*

"I would just like to say that on recommendation from friends in the Riverland, I had no hesitation in selecting Grant Sheds to erect a new shed at our home. **I was extremely impressed with Brenton Halupka and his extensive knowledge.** I had some ideas of what I wanted, but Brenton was able to help me bring it all together.

**Nothing was too difficult for him** and I was very impressed when he came out home and went over the site where I wanted the shed placed and came up with suggestions that I hadn't even thought about. **I was very happy with the total cost and am looking forward to the completed construction.**

*Chris Boyce, Loveday, SA*

*Chris' shed was being built at Loveday, while he was working at Yalata in the state's far west.*

“Shed quality is always good.

**Customer service is second to none.**

I found the builder to be prompt, efficient and very helpful.”

*Trev Rana, Berri, SA*

*6m x 12m x 2.7m with 2 roller doors.  
Trev has 2 GRANT sheds*

“I’m absolutely delighted with my Grant Shed. The service and administration has been **top class all the way through**. The payment schedule was very good and the builders were very co-operative and displayed a genuine and professional attitude to the job. **The strength of the shed and the cross bracing in the roof sections are much better than other sheds I’ve seen**. I think I got exceptional value for money.”

*David Arbon, Crystal Brook, SA*

“Thankyou for your time and effort in working with us in building our shed, **it is always good to work with friendly, efficient people**.

A good reputation is hard to get and easy to lose however, **while you have shed erectors as willing and professional as yours, your reputation is in good hands.**”

*Michael Babbage, Minlaton, SA*

*This is Michael Babbage’s 12m x 12m x 5.1m GRANT machinery shed with sliding doors on one end.*

“Just thought I would drop you a line to say how pleased we are with our new camp kitchen. It looks great, extremely solid and is now a major focal point in our park. ... Thank you to Danny, Brenton and Kirsty for the professional service that we have had starting from my initial enquiry right through to completion and beyond. **It is indeed very pleasing to receive the phone calls rather than making them and this was the standard throughout the process**. I also mention that the tradesmen were competent, friendly and turned up as promised. Once again, thank you for making all this happen stress free. With further developments planned in this park, I have no hesitation in using your company again and will no doubt recommend you to others.

*Peter Kollman, Kingston on Murray Caravan Park, SA*

**"The efficiency and professionalism of all the staff is to be recommended to everyone.**  
The staff were helpful and nothing was too much trouble"

*Di and Robert Ellis, Renmark, SA*

**"The quality, service and supply of these sheds have been fantastic.** Plus a huge rap for the builders... **Its a great deal with such professionalism"**

*Daryl Fielke, Taldra via Loxton, SA*

"I was pleased with the quality of the shed, and **the workmanship of the erectors was first class.** Thankyou."

*GR and MA Catford, via Orroroo*
